

CITRUSCAL MATURITY APP SETUP

V01 3/6/2017

APPLE SMART PHONES

The instructions below provide information on how to create a shortcut to the CitrusCal Maturity App on your Apple iPhone. When you access the App from your smart phone you are accessing the same environment that is available from a standard PC.

1	Open web browser on your phone and connect to www.gfap.com.au/citrusmaturity .
2	Select the Action Box [the square with the arrow coming out of it] at the bottom centre of the web browser window.
3	Select "Add to Home Screen" and then press "Add".
4	Click the icon to display the CitrusCal App as on left screen.
