As a leading labour hire provider in Victoria, Chandler Agribusiness continues to meet all its compliance obligations under the new Labour Hire Licensing Act 2018 - to protect labour hire workers. This means that our employer clients are assured that their labour hire partner Chandler Agribusiness is fully compliant.

In fact, we have our own internal compliance unit that monitors all facets of compliance to identify and correct any non-compliant findings.

Pay Rates & Conditions

For us at Chandler Services, running a labour hire company is also a lot like running a home. We are not about compromising on compliance to make an extra buck! We are about values; about the people we work with and the growers we serve. It's about our crew members; who have gone from being our employees to trusted friends and neighbours. We've seen the effects that paying a real living wage and work conditions has on our workers and their families. It's this spirit that makes our workers proud to come to work every day and be part of something big. It is truly a rewarding experience for both, the people we work with and the growers we serve.

Right to Work & Visa

We understand that your workforce is a representation of your business. All our candidates are put through a rigorous screening process to ensure that we are not employing or contracting illegal workers, and that they have the right to work in Australia. These includes:

- ☑ Complete immigration checks
- ☑ Current Visa checks on details and conditions for non-Australian residents

These checks our carried out by our own internal compliance department that continuously audits all aspects of current Visa details and conditions for non-Australian residents to identify and correct any non-compliance findings.
