2PH has grown from a small family concern into one of the largest privately owned mandarin orchards in the southern hemisphere. A strong commitment to quality makes 2PH one of the well-recognised citrus brands in Asia. The company has its own research program with over 10 hectares devoted entirely to the development of new mandarin varieties - with more colour, less seeds, and of course... better taste.

Favco is a family owned company that grows and markets Australian fruit and products from global partners. Our range includes citrus, grapes, cherries, stone fruit, berries, apples, pineapples, mangoes and lychees. We provide category management services in the retail, wholesale, food service and e-businesses sectors and our strategy is to achieve category growth. As growers we understand fruit, as marketers we understand the supply chain, and as retailers we understand the retail trade. With a regional base in Shanghai, we are there to service the needs of Asian customers.

Sim Fresh began operating in 1990, and since then has expanded every year. This medium sized packing shed boasts a high reputation for supplying the highest quality fruit to the world’s most demanding customers. The Sim Fresh packing house is supplied by 200 acres of its own orchards in New South Wales, as well as a grower network of 1500 acres. Its product mix includes navel and Valencia oranges, a wide variety of mandarins, and modest volumes of tangelos, lemons and grapefruit.
